

Wardkey, a brand of Meridal Group LLC · Wyoming, United States · Testing performed from the EU

Attestation of security testing

Letter ID WK-SAMPLE-0000 · Issued [date]

To whom it may concern,

Wardkey performed a security assessment of the system described below within the agreed scope and dates. This letter summarizes the engagement. The full report is available from the system owner under NDA.

System owner	[Company name]
Scope	[AI agent and LLM features / voice agent / multi-tenant web application], as listed in the rules of engagement dated [date]
Testing window	[start date] to [end date]
Method	Manual testing supported by tooling, mapped to OWASP ASVS, OWASP Top 10 for LLM Applications, OWASP Agentic Top 10 and MITRE ATLAS
Result	[n] findings: [n] critical, [n] high, [n] medium, [n] low
Retest	Performed on [date]. All critical and high findings verified as remediated.
Fix authorship	[n] fixes were written by Wardkey as pull requests, reviewed and merged by the system owner, and retested by a different Wardkey tester.

Lead tester name and certification

Signed on behalf of Wardkey (Meridal Group LLC). Shown in full on client letters.

This letter describes a point in time assessment of an agreed scope. It is not a certification and does not guarantee that the system is free of vulnerabilities. Verify this letter at wardkeylabs.com/verify using its ID.
